

The Most Innovative Residential Heat Pump System Available

Making your home Green & Smart

UNMATCHED COMFORT AND QUIET PAIRED WITH SMART INVERTER TECHNOLOGY & IoT CONNECTIVITY

- ESI Series - up to 18 SEER.
- ESI Ultra Series - up to 20 SEER and **100% heating capacity down to 5° F** outdoor ambient temperature.
- Sound levels as low as **56 dB**.
- **Full DC inverter** with over 30 variable stages.
- **Smart 4G LTE (not WiFi)** connectivity technology provides real-time information on self-diagnosis, fault predictions, filter change reminders and more.
- Only **2 control wires** required
- **Auto Charge** feature helps prevent over/under charging the system.

SMART REPLACEMENT SOLUTION:

Non-communicating inverter condensing units are compatible with most traditional 1 and 2-stage air handlers or furnaces and 24V controlled thermostats!

SIMPLE TO STOCK:

2 condensers and 4 air handlers provide 1.5T - 5T.

10-YEAR LIMITED PARTS & COMPRESSOR WARRANTY

With proper registration.
